PHARMAFORUM2023 Welcome Letter:

What is the Future of Pharmaceuticals?

Dear Attendees of PHARMAFORUM2023,

I would like to take this opportunity to invite everyone to PHARMAFORUM2023 August 21-23, 2023 in beautiful Vancouver, Canada. As scientists, as we continue to emerge from COVID, learning to live with SARS-CoV-2, it is imperative that we make up for lost time and take advantage of every opportunity to meet. Further, this is a moment in our healthcare history where we are having significant problems with pharmaceuticals. Undoubtedly, pharmaceutical agents have saved the lives of billions. From the discovery of penicillin in 1928 to the development of COVID vaccines in 2020, our healthcare system owes a lot to pharmaceuticals. But today, the story is different. Bacteria are developing a resistance to antibiotics. Cancer cells are developing a resistance to chemotherapeutics. Patients are becoming dependent on opioids, and I could go on. We must take a careful look at these issues, meet and debate our current healthcare system centered on pharmaceutical agents. It is imperative that we break through the false narratives posted on social media about pharmaceuticals and listen to scientists actually on the front-lines of these research and commercialization issues to improve our healthcare system. How can we improve pharmaceutical agent development? How can we improve pharmaceutical agent delivery? Do we have to rely on pharmaceuticals to solve every healthcare problem? Is commercializing academic research an effective way to develop next generation pharmaceuticals? How can big Pharma industries best share research to drive global healthcare forward? How do we reduce global healthcare disparities? Ultimately, what is the future of pharmaceuticals in healthcare?

All of these thought-provoking issues and more will be the focus of this conference. So, come make new colleagues, discover new science, tell us about your research, and help us develop a pathway for the future improved role of pharmaceuticals in healthcare.

I look forward to seeing you in Vancouver this summer!

A handwritten signature in black ink, appearing to read 'TJ Webster'.

Thomas J. Webster, Ph.D.
PHARMAFORUM2023 Honorable Chair
H-index: 115
Hebei University of Technology, China

Sessions:

- Pharmacy
- Pharmaceutical Research
- Biopharmaceutics
- Pharmacokinetics and Pharmacodynamics
- Pharmaceutics Technology and Pharmaceutical Sciences
- Medicinal Chemistry and Molecular Drug Design
- Clinical and Hospital Pharmacy
- Pharmacogenomics, Microbiology and Biotechnology
- Biodrugs, Biomolecules and Therapeutics
- 2D & 3D Printing in Drug Delivery
- Formulation Technologies and Reformulation Studies
- Pediatric Drug Delivery Systems
- Novel Vaccine Drug Delivery Systems
- Drug Reaction and Drug Toxicity
- Industrial/Physical Pharmacy
- Nanotechnology in Drug Delivery and Nano Medicine
- Immuno Pharmacology
- New Drug Development Techniques
- Transdermal/Intradermal Drug Delivery Systems

- Pharmaceutical Materials Science And Formulations
- Drug Delivery And Biomaterials
- Infection And Antimicrobial Resistance
- Medicine Optimization And Healthcare Delivery
- Nanomedicine And Biotherapeutics
- Pharmacology And Toxicology
- Computational Drug Discovery
- Pharmaceutical Chemistry
- Pharmaceutical Analysis and Quality Assurance
- Hospital and Clinical Pharmacy
- Pharmacy Practice
- Pharmacognosy and Phytochemistry
- Pharmaceutical Microbiology
- Industrial Pharmacy
- Pharmaceutical And Life Sciences

Plenary Speakers

Thomas J Webster
Hebei University of Technology
China
h-index-115
Conference Chair

Li Linheng
Stowers Institute for Medical
Research, USA

Jinjun Shi
Harvard Medical School,
USA

Gendelman Howard
University of Nebraska Medical
Center, USA

Nicolas Singewald
University of Innsbruck,
Austria

Farid Mena
University of California San Diego,
USA

Martina Schmidt
University of Groningen,
Netherlands

Bruno Sarmiento
University of Porto,
Portugal

Huynh Hung
National Cancer Centre Singapore,
Singapore

Organizing Committee members

Danilo A. Tagle, National Center for Advancing Translational Sciences (NCATS), USA

Peng Shi, City University of Hong Kong, Hongkong

Gendelman Howard, University of Nebraska Medical Center, USA

Yuzhe Yang, Massachusetts Institute of Technology, USA

Li Linheng, Stowers Institute for Medical Research, USA

Amrendra K Ajay, Brigham and Women's Hospital, USA

Zuo Xiangsheng, University of Texas, USA

Songmin Ying, Zhejiang University School of Medicine, China

Zifu Li, Huazhong University of Science and Technology, China

Abdulrahman Alamri, Ministry of Education, Saudi Arabia

Jose Fernando Oliveira Costa, University of Porto, Portugal

Ren Lai, Chinese Academy of Sciences, China

Henik GÂ Kruger, University of KwaZulu-Natal, South Africa

Kofi Boamah Mens, Utrecht University, Netherlands

Elena Poverenov, Volcani Institute, Israel

Diana Fernandes de Sousa Rafael, VHIR Vall d' Hebron Research Institute, Spain

Taibi Ben Hadda, UniversitÃ© Mohamed, Morocco

Maja Ortner Hadziabdic, University of Zagreb, Croatia

Stephanie Andrade, University of Porto, Portugal

Xin-Fu Zhou, University of South Australlia

Tumaini John Makole, Pharmacy Council of Tanzania, Tanzania

Hulya Yilmaz, University of Sabanci, Turkey

Abdulrazaq S. Al-Jazairi, King Faisal Specialist Hospital and Research Centre, Saudi Arabia

Qasem Ramadan, Alfaisal University, Saudi Arabia

Ignacio E Leon, University of La Plata, Argentina

Uqbah Iqbal, National University of Malaysia, Malaysia

Yogendra Kumar Gupta, All India Institute of Medical Sciences, India

Chonlaphat Sukasem, Mahidol University, Thailand

Important Dates

Abstract Submission Deadline	July 21, 2023
Earlybird Registration	January 21, 2023
Standard Registration	March 25, 2023
On-spot Registration	August 21, 2023

Sessions: <https://www.continuumforums.com/2023/pharmaforum#sessions>

Abstract submission: <https://www.continuumforums.com/2023/pharmaforum/abstract-submission>

Speakers: <https://www.continuumforums.com/2023/pharmaforum#speakers>

Venue:

Pacific Gateway Hotel | Vancouver. Canada

About Venue:

Vancouver, a bustling west coast seaport in British Columbia, is among Canada's densest, most ethnically diverse cities. Part of the beauty of this place comes from the diversity of the people. It is a safe, inclusive city, and it is one of the 70+ languages spoken here (though English and French are official languages). A popular filming location, it's surrounded by mountains, and also has thriving art, theatre and music scenes. Vancouver Art Gallery is known for its works by regional artists, while the Museum of Anthropology houses preeminent First Nations collections. Getting here is simple as you'll find non-stop direct flights to over 122 destinations, with 86 US and 43 international arrivals per day.
